

**VOLUNTARY REMEDIATION PROGRAM  
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

**PROJECT SUMMARY**

<b>Site name:</b>	<b>Inergy/Former Domex</b>
<b>Applicant Name:</b>	<b>Inergy, LLP</b>
<b>Site location:</b>	<b>125 East North Street, Kendallville, IN 46755</b>
<b>VRP Site No.:</b>	<b>6021004</b>
<b>Project Manager:</b>	<b>Ruth Williams</b>
<b>Date application received:</b>	<b>October 23, 2002</b>
<b>Date project completed:</b>	<b>October 29, 2003</b>
<b>Contaminant(s):</b>	<b>Benzene, Toluene, Ethylbenzene, Xylenes (BTEx); Methyl tert-Butyl Ether; Polyaromatic Hydrocarbons; Petroleum Hydrocarbons</b>
<b>Media addressed:</b>	<b>Subsurface soil</b>
<b>Cleanup Objectives Achieved:</b>	<b>RISC 2001 - Residential</b>
<b>Deed/Land-use restrictions:</b>	<b>None</b>

**Project Summary:** The site had formerly operated as a retail gasoline station, beginning in 1958. Underground storage tanks were removed in 1981, when it became a used car dealership. Since 1988, the site has been used for office space. Shallow subsurface soil contamination was discovered in the area of the pump island and tank cavity during the preliminary environmental assessment. The area was excavated, the contaminated soil was disposed of offsite, and confirmation testing demonstrated that RISC 2001 Residential cleanup goals were met.
